

Summary Report

Course and Instructor Evaluations

United States Army Workforce Development

Aberdeen Proving Ground, MD
FERS Full Day Briefing

An additional service that we believe differentiates our programs from others is a Summary Report of the briefing that includes the participants' evaluations. We requested that each participant score both the course and the instructor in several areas from 1 (highest) to 5 (lowest). Now that your program has been completed, we are providing you with a report that contains copies of all of the participant evaluation forms that we received with attendees' comments. Included with the evaluations is a Summary Report that provides you a tally of the scores. This can be an excellent management tool for determining and reporting the effectiveness of your briefings. The Course and Instructor Evaluation Form and the Summary Reports are included with for the following sessions.

PROGRAM DATE
